KY. STATE UNION AT FRANKFORT.

A Business Session Through-
out—Old Officers Re-elected.

Next State Meeting To Be Held
at Henderson One Year
Hence.

The farmers of the Kentucky branch of the American Society of Equity rushed through a big program, and completed the business of its third annual convention in one day. New officers were elected at the night session, after the delegates had been filled up with a feast of reason and a flow of soul, together with something of a more substantial nature, as the guests of the Business Men's Club.

The whole work of the convention was carried through with the utmost harmony, and a determination to do something which will redound for the good of the great mass of the farmers who are the bone and sinew of this successful organization. The delegates came eager to work for the success of their organization and to learn by discussion and suggestion what can be accomplished in the future to attain the object to which they aspire.

The only change made in the officers was in the Board of Directors. Words of commendation for the two leading officials, the President and Secretary were heard on all sides, and no one thought for an instant of suggesting any one else for the positions which the incumbents fill so satisfactorily and successfully. Indeed, as a slight testimonial of their esteem and appreciation of their worth, assistance was voted the President, and the salary of the Secretary, who devotes all of his time to the Society, was given a substantial increase.

The convention remained in session until midnight, "resolving" on various questions of interest which were brought up. Twenty-one delegates to the National Convention were named as the last business on the program.

The convention was called to order in the Senate chamber by President David Moreland, of Ohio county. Representative farmers, chiefly tobacco men from all parts of the Commonwealth, were on hand to take part in the proceedings.

Agricultural Commissioner Hubert Vreeland delivered the formal address of welcome after the proceedings had been opened with an invocation by Rev. C. R. Hudson, of the Christian church. Interest was intense among the visitors and the hall was crowded to its utmost capacity.

An eloquent response to the speech of welcome was made by E. L. Davenport, of Muhlenberg county, and the convention got down to real work.

COMMITTEES APPOINTED.

After the minutes of the previous meeting at Owensboro had been read by the Secretary and approved, President Moreland appointed the following committees, the first named being chairman:

Resolutions—C. M. Barnett, Ohio; J. D. Raikes, Webster; W. T. Nolan, Henry.

Constitution and By-Laws—H. E. Swain, Henry; T. T. Barrett, Henderson; George Davis, Owen.

Organization of the State of Kentucky—Lewis Hancock, Webster; J. Noble, Marshall; M. C. Rankin, Henry; M. F. Sharp, Ohio; L. N. Robertson, Daviess.

to confer with Delegates from Other Labor Organizations—J. H. Burney, G. W. Grant, W. T. Lee, O. W. McElroy, W. C. Miller, D. E. Stuart.

Permanent Organization—Walter Thornton, McLean; S. A. Franklin, Mason; F. F. Brown, Hopkins; C. M. Hanna, Shelby.

The Secretary made a splendid

financial report, and also report showing the rapid increase in the membership. He was given a vote of thanks for his good work, and later on, his salary was increased from \$60 to \$100 per month. The President was also authorized, on account of the increase in work, to employ the aid of a Secretary for such time as he may require.

The Committee on resolutions made the following report, which, after some discussion, was adopted:

RESOLUTIONS ADOPTED.

Resolved, First, That we congratulate the State Union on its very efficient management and rapid growth throughout the State, especially upon its whirlwind campaign and rapid organization in the White Burley district.

Second, Whereas, It has been reported to this committee that a great hindrance to the growing tobacco has developed in the fact that the landlord shifts the pledging on his tenant and the tenant shifts the pledging to his landlord, etc., therefore, be it

Resolved, That we recommend that no landlord, who is a member of the A. S. of E. shall hire or contract with a tenant who will not agree to pledge the prospective crop of tobacco, and that no tenant, a member of the A. S. of E. will contract to raise a crop of tobacco unless his landlord will agree to pledge said crop.

Whereas, The American people are being imposed upon by reason of the fact that there is no regularity in the rates charged by the various express companies, therefore be it

Resolved, That we recommend that this body appoint a special committee to prepare a memorial to present to the Congress of the United States requesting an investigation and the enactment of the necessary laws to regulate all rates to be charged by said express companies on an equitable basis.

Whereas, Grave and irregular mistakes are often made in financing large propositions, and

Whereas, As the Burley District Society has already contracted a proposition of immense magnitude,

Resolved, That we earnestly recommend that the greatest care and caution be exercised in selecting men to finance and complete the purpose of said society.

Resolved, That we condemn in unmeasured terms, the burning of tobacco warehouses at Princeton or elsewhere. The destruction of property, inflammatory speeches and all forms of lawlessness have no place in equity.

Resolved, That we extend to the citizens of Frankfort, and to the members of the Franklin county union, our thanks for the hearty welcome which has been extended to the delegates of this body and for the uniform hospitality shown us during our sessions.

Respectfully submitted,
C. M. BARNETT,
JAS. D. RAIKES, Com.
W. S. NOLAN

The committee on perfecting organization in the State recommended that the State organization have charge of all the organization force in the State.

Committee on permanent organization recommended the following for State officers for the year, and they were unanimously elected:

President—David Moreland, of Ohio county.

Vice President—M. C. Rankin, of Henry county.

Secretary—S. B. Robertson, of McLean county.

State Organizer—L. N. Robertson, of Daviess county.

Assistant State Organizer—M. F. Sharp, of Ohio county.

Board of Directors—S. B. Lee, of Daviess; Ben Watson, of Webster; J. H. McConnell, of Caldwell; Dr. J. A. Reed, of Mason, and H. E. Swain, of Henry.

After selecting Henderson as the next place of meeting, and electing twenty-one delegates to represent the State at the National meeting, the Union adjourned.

MANY INDIGNITIES FROM BECKHAM

Have the Breathitt County
People Suffered.

Farce Hargis Trial, For Which
Beckham is Responsible, Ex-
ceeds Them All.

The Breathitt News, published in Jackson, has the following regarding the Hargis trial:

The people of Breathitt county have suffered many indignities at the hands of Beckham and his followers during the past few years, but the farce that has been enacted here during the past week in the name of the court, has, we think, far exceeded anything that has ever happened in Kentucky, or any other civilized country.

Such things as have happened here during this week under the guise of a court of justice cannot properly be described in print. In our limited experience and observation this is the first court we have ever seen where the Commonwealth had absolutely no rights at all. We doubt that if in the history of Kentucky any instance can be found where a Commonwealth's Attorney was refused the right to have an indictment that he had written quashed when he stated to the court that the indictment did not conform to the facts or the proof to be presented.

The law is plain that the jury panels shall be drawn from the jury wheel or drum, yet this court refused this to be done and declared that he would have a jury selected from bystanders, and then removed the Sheriff, whom the people of this county elected, without sufficient cause being shown for his removal, and declared that he himself would appoint a special bailiff to summon the jury and announced that he did not know any of the people of Breathitt county and that he found that the people were divided and everybody lined up on one side or the other.

All these things and more were done over the vigorous protests of the Commonwealth's Attorney and his co-counsel.

Other indignities might have been committed had not the court been stopped in its mad career by a writ of prohibition issued by the Court of Appeals of Kentucky, citing the Judge to appear at Frankfort next Tuesday to give an account of his actions.

Our people are as law abiding and as good citizens as any in the State, when they have a chance, and they have endured more under the forms of law than any other people would have stood for. Such proceedings as have been enacted here this week and on other occasions, under the form of law, tend to make our people lose respect for the courts, where they wish to go to for, and have a right to expect, a redress for grievances.

Our people do not want anybody persecuted or any innocent man punished. All they want is that justice be done—that and nothing more.

For Sale.

Aunt Julia Newton Dead.

"Aunt" Julia Newton, a highly respected negro woman of the "old school," died at her home near Pleasant Ridge on the 9th inst. in the seventy-ninth year of her age. During the days of slavery she belonged to the family of the late Wm. C. Rowan, and although, in common with all her race, her freedom was vouchsafed by the terms of Lincoln's

proclamation, she was loath to exercise it on account of the ties of love existing between her and the members of her late masters family. So to speak, she was a mother to Mrs. Abbie Ford, of this place, Mrs. Ford's mother having died when she was only a few days old, and "Aunt" Julia then assumed the duties incumbent upon her as the "black mamma" of the family.

"Aunt" Julia was constantly the recipient of tender care and attention at the hands of those she loved and had served so well to the last. To the writer this sort of thing is indeed a beautiful sentiment. L.

R. B. MARTIN,

Sheriff of Ohio Co., who has received his quietus from county and State.

SHOULD NOT DELIVER WET TOBACCO.

Is Not Fair to Man Who De-
livers in Good Con-
dition.

Mr. Vickers, who is in charge of the pooling house at Hartford, has received the following letter from Mr. Barnard President of the Louisville Tobacco Warehouse Co.

"Owing to the continued wet season causing the extreme high order that tobacco must be in, I am of the opinion that you should stop receiving all tobacco that is not in good order. Tobacco that will bruise and damage in hauling and handling will necessarily damage quickly in bulk. I have no doubt a great deal of this kind of tobacco is now being delivered.

Furthermore, the heavy loss in weight that will be made in redrying this kind of tobacco will cause the farmers to be dissatisfied with the loss in weight when the tobacco is sold, and this shrinking in weight on soft tobacco is not fair to the man who delivers tobacco in good condition; as the tobacco is commingled and sold upon the same basis.

I call your attention to this fact in order that each farmer delivering tobacco may be treated in the same way and upon a fair business basis.

You will especially call the attention of your grader to this letter, as he should be responsible to the farmers, and you are responsible to this company.

I write this letter in fairness to all parties interested."

I. P. BARNARD,
Pres. Lou. Tob. Warehouse Co.

Cumberland Co. Enjoined.

The Cumberland Telephone Company's effort to connect with the Rural Home Telephone Company's lines in Daviess county and sever them from the Central Home Company, an independent concern, has been blocked by a mandatory injunction issued by Judge T. F. Birkhead last Monday.

A few weeks ago, as the report goes, the Cumberland Company without any notice of its action proceeded to disconnect the lines of the Rural Home Telephone Company from those of the Central Home Company's lines and join them to theirs. This was stopped by a temporary restraining order issued by Judge Birkhead at the time, and on final hearing the order was made permanent.

BRILLIANT OPENING OF HARTFORD COLLEGE.

Third Quarter Begun With Many
New Students and Flatter-
ing Prospects.

The third term of Hartford college began Monday with flattering prospects. All of the students, both old and new, seem anxious to get down to work as soon as possible. Although the weather was very rainy and the roads in a very bad condition, there were thirty-two new students who matriculated Monday morning.

The new furniture and apparatus that was ordered some time ago, will be installed within a few days.

Prof. Will S. Taylor has accepted a position as a teacher in the collegiate department. There are three regular teachers in this department and they are more able to come in personal contact with the students.

Last Friday evening the Adelpheans held their regular quarterly election of officers. The following officers were elected: President, J. Ney Foster; Secretary, R. W. Tinsley; Sergeant at Arms, D. O. Brown; Treasurer, V. B. Patterson. The society will give an open session at the college this evening. All are invited.

Examinations for the second quarter closed last week. Most of the pupils did exceedingly well.

Monday morning at chapel exercise Col. C. M. Barnett and Rev. A. B. Gardner were present and both made interesting as well as instructive talks. The teachers also made short talks and gave encouragement to the pupils.

The names of the new students of the collegiate department are as follows: Delmer Stuart, Earl Smith, Laurence Gary, Leslie Greer, Onis Greer, Elbert Goodall, Wilfred Ashby, Ira Plummer, Ernest Duke, Everett Maden, Daniel Beck, Ethel Rains, Alta Likens, Ruth Hammons, Nanine Renfrow, Katie Hawkins, Arbie Brown, Iva Cummins, Kate Simpson, Everett Lile, Columbus King, Lillian Patterson, Anna Carter, John Morton, Mary Fulkerson, Victoria Bracken.

Those who entered other departments are: Albert Baughn, Alsie Baughn and Veola Westerfield.

A reception will be given to the students and patrons of the school Friday evening, January 25. There will be a short literary program and the remainder of the evening will be spent in a social way.

FOR THE BUSY READER.

The Ohio river continues to rise at the rate of two inches an hour at Cincinnati and has passed the danger line of fifty feet.

The Appellate Court Monday denied a rehearing in the cases of Guy Lyons and W. R. Fletcher, convicted in Logan county of criminal assault and sentenced to death. Gov. Beckham immediately fixed the date of execution for Friday, February 15.

The Ohio River has cut a channel across the Big Horseshoe bend between Evansville and Henderson and is flowing through at a tremendous rate, leaving the water in the harbor as quiet as a lake. The city confronts the serious danger of being left five miles from the Ohio river.

The snowfall in the Northwest is heavier than ever before. The great Northern and other railroads are struggling against drifts twenty and thirty feet deep and trains are days behind time. Part of the Soo line has been abandoned, and the Canadian Pacific in western Canada, has suspended operations. The weather is severely cold, ranging anywhere from 38 to 55 degrees below zero.

A Breckenridge Giant.

(Hardsburg Democrat.)
A Kosetia school boy, Oscar Bramlet breathes a rarer atmosphere than any young fellow of his age, likely, in Kentucky.
He is seventeen years old and has

reached the height of 6 feet 9 inches. He wears a No. 14 shoe, pantaloons 38 inches in the waist and 40 inches in length and a 7 1/2 hat.

He weighs 221 pounds, is well proportioned, and expects to grow to be 7 feet and 3 inches in height. He is a jolly companion and one of the obedient and active pupils of Guthrie Tucker's school.

SMALLHOUS.

Jan. 16.—Mrs. Price Morton and Miss Ida Addington were the guests of Mr. and Mrs. V. M. Morton, Livermore, recently.

John Morton and Murray Fulkerson went to Hartford last Monday to attend school.

M. Ball, S. E. Hunter and Vig Morton went to Rockport last Monday.

Miss Alice Fulkerson is visiting at Central City.

Mr. Harry Everley is the guest of Thomas Bishop and family at Matanzas.

W. C. Overhults went to Matanzas Sunday.

Owing to so much rain and mud the work on the railroad is not progressing very fast.

Lee B. Overhults went to South Carrollton Monday.

John Pirtle and family, of near South Carrollton, passed through here enroute to Beaver Dam where they will make their future home.

GRAND JURY INVESTIGATING PRINCETON FIRE

Report That Man Recognized Several Members of the Mob
Causes Excitement.

Princeton, Ky., Jan. 15.—The citizens' committee, which has for some time been investigating the action of the night riders here last month, when two large tobacco warehouses were burned, is continuing its labors, and it is believed, with considerable hope of success. The claim is now made by some of those who have been particularly active in the inquiry that within a few days there will be enough evidence to convict a number of those who were in the party.

Considerable excitement was caused here by the statement that a man whose name has not been made public was coming into town on the night of the raid and saw a large party of the horsemen riding into Princeton. Fearing trouble, he hid in a ditch by the roadside and as he did so he recognized a number of faces, as they had not put on their masks. This man will testify before the grand jury, it is said, if he is guaranteed protection. Another man, who will testify under the same conditions, says he recognized several of the men as they were leaving town.

LONG & COMPANY'S
ECONOMY STORE, HARTFORD, KENTUCKY.

THE ABUSES OF KY'S. TAX SYSTEM.

Too Many Assessors, Supervisors and Tax Collectors.

Too Much Paid for Collecting And Officers Evade the Law To Make it More.

(H. R. Perry in Sun-Sentinel.)

Talk about the tax on tea that precipitated the American Revolution, the tariff tax, the revenue tax or any other kind of tax. There never was a system of taxation as cumbersome, as expensive, as unjust as the Kentucky system.

I want to give a homely illustration of one part of the system: Mr. Easi Too Beet lives in Winchester, (any other town will do.) Mr. E. T. B. owns some property; is the father of children. The first official to call is the Assessor. "Mr. E. T. B. what do you own?" Ans. "House and lot, worth \$1,000." "How many children have you between the ages of 6 and 20?" Ans. "Four." Other stock questions are asked and the Assessor departs. The Assessor reports to the County Court and a Board of Supervisors is appointed, one from each magisterial district. They go over the Assessor's books and are supposed to correct any errors that have been made. When their work is done, the report is sent to the State Board of Equalization, which is composed of one member from each Appellate district. When they get through, after a hundred days at five dollars per day and expenses, the list is placed in the hands of the Sheriff and Mr. E. T. B. can call and pay his county and State taxes.

The next official to call on Mr. E. T. B. is the City Assessor. Exactly the same questions are asked and the same answers given as in the case of the County Assessor. A report is made to the Council. A city Board of Supervisors is appointed. They do exactly the same work that has already been done by the County Board on the property that is in the city. They report back to the Council, the clerk is paid an extra fee for copying the list, after which Mr. E. T. B. can hunt up the City Collector and pay his city and school taxes.

The next official to call on Mr. E. T. B. is the school census taker, employed by the Board of Education. Mr. E. T. B. is required to tell how many children he has between the ages of 6 and 20, a thing that he has told and sworn to twice before.

It is generally supposed that the Sheriff and City Collector each get ten per cent. on the first five thousand dollars collected, and four per cent. on all above that amount, but that is not the way of it. The funds are divided. Ten per cent. on the first five thousand for the State, ten per cent. on first five thousand for the county, ten per cent. on first five thousand for city purposes, ten per cent. on first five thousand for schools. Total, twenty thousand dollars on which ten per cent. is paid.

Mr. E. T. B. is also required to pay several poll taxes for the privilege of breathing. He owes five hundred dollars on his home, but he must pay taxes on what he owes, and the party to whom he owes the five hundred must also pay. Summary: Three Assessors, three boards of Supervisors, two tax collectors. Is there a remedy? Yes—one Assessor, one Board of Supervisors, one tax collector, this collector to apportion to each division the amount belonging to that division and for his services receive two per cent.

"I had tried everything for baby, until Dr. Lyle recommended CASCA-SWEET. I can truthfully say it is the best medicine I ever used for babies. Courtship Among Animals.

(John Borroughs in The Outlook Magazine.) Another human trait that seems almost universal among the lower animals is the coyness and reluctance of the female in her relations to the male. Her first impulse is to refuse and to flee. She is as negative as the male is positive. Among the

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heartburn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, rapid liver with indigestion. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle wrapper and attested under oath. A glance at its formula will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of the following native American forest plants, viz., Golden Seal root, Stone root, Black Cherry bark, Queen's root, Bloodroot, and Mandrake root.

The following leading medical authorities, among a host of others, extol the foregoing roots for the cure of just such ailments as above symptoms indicate: Prof. R. Bartholow, M. D., of Jefferson Med. College, Phila.; Prof. H. C. Wood, M. D., of Univ. of Pa.; Prof. Edwin Hale, M. D., of Hahnemann Med. College, Chicago; Prof. John King, M. D., Author of American Dispensatory; Prof. Jno. M. Scudder, M. D., Author of Specific Medicines; Prof. Laurence Johnson, M. D., Med. Dept. Univ. of N. Y.; Prof. Finley Ellingwood, M. D., Author of Materia Medica and Prof. in Bennett Medical College, Chicago. Send name and address on Postal Card to Dr. R. V. Pierce, Buffalo, N. Y., and receive free booklet giving extracts from writings of all the above medical authorities and many others endorsing, in the strongest possible terms, each and every ingredient of which "Golden Medical Discovery" is composed.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They may be used in conjunction with "Golden Medical Discovery" if bowels are much constipated. They're tiny and sugar-coated.

birds there is something like regular courtship, there is rivalry and jealousy and hostile collision on the part of both sexes. With the birds the propagating instinct in the female is evidently not subject to the same law of recurring intervals that it is among animals. Hence the female must be stimulated and won by the male. He addresses himself to her in a way that is quite exceptional, if it occurs at all, among animals. His aim seems to be to kindle or quicken her sexual and mating impulses. In the case of mammals these impulses recur at certain periods, and no courtship on the part of the male is necessary.

NEW PEOPLE IN ARCTIC REGION.

Whaling Captain First White Man Ever to Penetrate Their Home.

Details of the finding of a people on Prince Albert Land, in the Arctic, who had never seen white men, are given by the officers of the revenue cutter, Thetis, who learned of the facts from Capt. Klinkenberg of the steam whaler, Olga, who found them.

Last winter when his vessel was in the ice near Prince Albert Land, Klinkenberg, accompanied by an Eskimo, started inland on a hunting trip. He went 250 miles in a north-easterly direction over the snow, finding traces of human life. Other whalers also had seen traces of natives in this region, but never sighted them. Capt. Klinkenberg came up with a hundred and fifty or more of them.

When they saw him they came forward with copper knives and bows and arrows. They held these above their heads, and he pointed a rifle at them. One advanced alone, and the Captain laid down his rifle, the native putting down his weapon. They became friendly, and by means of signs Klinkenberg learned that other than one old woman who came from Prince William Land they never had seen white men previously. He visited the village and found about 600 persons, all of whom lived by fishing and hunting.

They used most primitive utensils, fashioned from bones and native copper. Their dress was not like that of other Eskimos, but similar to that of the Greenland natives, made of soft, tanned skins sewed with deer sinews. They were nomadic and their winter houses were made of sod, with an inner lining of skins and different in shape from those of other known tribes. The only article seemingly brought from civilization was a piece of steel, evidently from some ship, which was converted into a spearhead.

THOUSANDS SAW WATER WALKER.

River Bank Lined With People Eager to See.

Has Had Much Unfavorable Weather to Contend With.

Prof. Oldreive the water walker arrived at Owensboro last Friday morning on his forty days trip from Cincinnati Ohio to New Orleans walking on the placid waters of the Ohio river.

When the whistle of the municipal water plant blew, closely followed by the whistle of the Owensboro Water Works company's plant, the people began to swarm the river banks from all parts of the city.

In an interview the water walker said: "I have been delayed by strong head winds. I spent the night two and one-half miles below Rockport, on the Kentucky side. We left there this morning at 15 minutes past 7 o'clock. For the last few days we have suffered considerably from the severe cold and from the stiff headwinds."

Mrs. Oldreive has suffered more than I have. Of course, one would naturally get colder sitting in a skiff than walking. We are behind our time and I do not know if we will be able to make it up. I am trusting solely to the elements while in the Ohio. When I get into the Mississippi, I hope to make up my time with the aid of the rapid current. In about a week I will know whether I can make the trip on schedule time or not. We have had much to contend with in the way of unfavorable weather."

At this juncture of the interview one of the shoes sprung a leak and the professor was forced to get into the skiff with his wife and be brought to the boat.

The two shoes were then dragged out of the skiff and taken into the houseboat for repair. The leak which had sprung in the toe of the right shoe was quickly patched with asphaltum. The "professor" said that since coming over the falls at Louisville, he had had trouble with numerous leaks.

The shoes are covered with asphaltum, and measure about three feet in length, six inches in width, and eight inches from top to bottom. They are boxed like the hull of a boat, and have sharp toes so that they can be shoved through the water easily. The cedar wood, of which they are made is about half an inch thick. The interior of the shoes are hollow and in the opening the professor has places made for his feet.

While walking he shoves his feet along like one would do on skates, and swings his arms to keep his balance, which is, he says, very hard to do on a rough river. After remaining on the levee for half an hour and taking pictures of the crowd, he got back into the skiff with his wife at the oars, where he again put on his shoes and started for Evansville. He said that he would get to Evansville four hours behind his schedule.

In speaking of his time, "Prof." Oldreive said that he could make forty miles a day on this river. He said that near Madison, Ind., he made in one day forty-nine and one-half miles. He seemed to think that he could easily make his trip on time and win his wager.

Food don't digest. Because the stomach lacks some of the essential digestants or the digestive juices are not properly balanced. Then, too, it is this undigested food that causes sourness and painful indigestion. Kodol for indigestion should be used for relief. Kodol is a solution of vegetable acids. It digests what you eat, and corrects the deficiencies of the digestion. Kodol conforms to the National Pure Food and Drug Law. Sold by all druggists. m

Gone Back to Good Old Names.

"I was looking over the society column of my newspaper," said a lady of the old school to the New York correspondent of the Cleveland Plain Dealer, "and it did my heart good to see how people have returned to the good old habit of giving their girls names that stand for dignity, poetry and the traditions of our race."

"There was not a Sallie, a Mamie or a Nellie in the list. In one an-

nouncement of a reception given by a mother on the coming out of her daughter there was 1 Dorothy, 1 Alice and 1 Eleanor, 2 Helens, 1 Augusta, 1 Elizabeth, and, thank heaven for it! one plain, lovely and old-fashioned Mary. There was a Lucy, a Jane, an Agnes and three or four Ruths. It seemed to me, almost, as if I were reading a social roster of the respectable days of forty years ago."

Mothers who give their children Kennedy's Laxative Cough Syrup invariably indorse it. Children like it, because the taste is so pleasant. Contains Honey and Tar. It is the original Laxative Cough Syrup and is unrivaled for the relief of croup. Drives the cold out through the bowels. Conforms to the National Pure Food and Drug Law. Sold by all druggists. m

WEARING APPARE MADE OF REAL WOOD

Fabric Fashioned From Lumber May Soon be Familiar Feature in our Stories.

The old saying of giving a man a "white pine overcoat," meaning thereby the covering provided by the undertaker, as a last and outside shell, is likely to be realized in a more practical way, and for the living, for clothing is now being made from wood, or more strictly speaking, wood pulp. The extreme cheapness and durability of clothing made from this material is a very important item, and will solve the question of cheap clothing for the workingman. For a long time collars, shirts, napkins, tablecloths and other fabrics have been made from the fiber of hemp, though this fiber is scarcely to be called wood, for it is separated from the woody matter of the slack in practically the same manner as is the fiber from flax; but, being coarse, longer and not often used for anything but coarse cloth, bagging, etc. The material for wood clothing is a different process, the wood being ground and macerated to a pulp, and when of proper consistency the mixture is forced through holes in iron plates coming out in long strips from one-half to one-quarter inch in thickness. While moist these strings are very easily broken, but when dried and tightly twisted and then woven into fabric they become strong, elastic and durable. Ere long the department stores will have wood clothing for sale on their counters even if merely to show they are keeping up to the times. And thus another and a very large use for timber and lumber looms up, but in this case culls and waste stuff can be used, principally pine and spruce.

Little touches of back-ache should not be allowed to go untended. Rheumatism and many other things follow. A box of DeWitt's Kidney and Bladder Pills will bring relief quickly. They drive the poison from the body. Act on the liver as well as the kidneys. A twenty-five cent box holds a week's treatment. Sold by all druggists. m

Beautiful Passage.

(Boston Transcript.) A sweet, young thing has written a novel. It is a wonderful performance. Take this passage: "All of a sudden the beautiful Alicia continued to sit on the sands, gazing out upon the briny deep, on whose heaving bosom the tall ships went merrily by, freighted, ah, who can tell, with how much joy and sorrow, and pine lumber and emigrants and hopes and saltfish."

Clear up the complexion, cleanse the liver and tone the system. You can best do this by a dose or two of DeWitt's Little Early Risers. Safe, reliable little pills with a reputation. The pills that everyone knows. Recommended by all druggists m

ANNOUNCEMENTS.

We are authorized to announce S. A. ANDERSON, of West Hartford Precinct, a candidate for Representative in the General Assembly from this, the 26th district, subject to the action of the Republican party.

We are authorized to announce W. W. PARK, of the Boda Precinct, a candidate for Representative in the General Assembly from this, the 26th district, subject to the action of the Republican party.

Examine the label on your paper, if it is not correct notify us.

WE nominate David Moreland for National President of the A. S. of E.

OHIO county is always at the top in a State Union American Society of Equity.

THE year 1907 is not going to be outdone by 1906 in the matter of earthquakes.

Do not borrow from the trusts urges a contemporary. There is little danger of the majority of us doing so.

A UNITED STATES Senator is quoted as saying that "Uncle Sam" has no enemies, but he has plenty of trouble with his fool friends.

FOR the Democrats, the campaign of 1908 seems to hold nothing more exciting than the nomination of a candidate for Vice President.

WHEN Senator Tillman feels called upon to criticize the President for unfair treatment of the negro, in the Brownsville affair, it seems the debate must be about over.

IN North Dakota recently, a divorce case was called at 8 o'clock a. m., and a decision rendered an hour later. The docket must be light, when they waste all that time on one case.

THE President should be careful when he opens the Greater Louisville Exposition, and not press the button which the City Democratic machine uses to summon election repeaters.

IS HARTFORD, after all these years of striving to obtain a railroad, to get it just in time to take her share of the suffering occasioned by the car famine? Heretofore we have been especially immune from this sort of famine.

THE great work which David Moreland has done for the cause of Equity is not only appreciated in Ohio county, but in the entire State. At Frankfort no other name was even suggested in connection with the State Presidency. It was a well deserved compliment.

PHARISICAL wringing of the hands, and appeals to the lawless will not win the fight for Equity. What we want is compact, universal organization and undying devotion to the principles of the society. The member who attends the meetings of his local, keeps his dues paid up, stands by his pledge and does what he can to smooth out the wrinkles of dissensions, is worth more than a field full of wild "wind jammers."

WHAT IF HE WERE A REPUBLICAN?

"Senator Joseph W. Bailey is having the fight of his life, but we hope he will come out on top. He made a terrible mistake in borrowing money from the Standard oil trust, which was so willing to lend it, but we do not believe he acted otherwise than honestly, and hope the investigation before the Texas Legislature, which is proposed, will fully vindicate him."

The above from the Kentucky State Journal, which never lets an opportunity slip to belabor a Republican official, who may happen to go wrong, only shows that it still makes some difference about "whose ox is gored."

UNDER WHICH SYSTEM?

A socialist paper, published at Girard, Kansas, has offered \$1,000 in gold to induce the kidnapping of Gov. Taylor and his return to Kentucky for trial. Whereupon, our local contemporary remarks that while the kidnapper is to be condemned, "all fair minded" persons

in Kentucky think Taylor ought to be brought back to Kentucky and tried. As there seems to be two distinct systems of criminal procedure in Kentucky, as at present administered, we would like to ask under which one Governor Taylor, if brought back, is to be tried? Under the system by which Caleb Powers was tried, the defendant is denied bond. He is considered guilty unless proven innocent, thus reversing the time honored rule in such cases. Under this system, the commonwealth furnishes \$100,000 of the tax-payers money, with which to hire unscrupulous Attorneys, and bribe witnesses to swear away the life of the defendant. All rules of evidence are construed in favor of the commonwealth and against the defendant. Finally, the jury is packed with partisans, and conviction insured.

Now, let us turn to the other system, under which the Hargises, the Breathitt county assassins, are being and have been tried. Under this system, the defendant is never allowed to remain in jail longer than his brother or fellow conspirator can be telephoned to and sign his bond. The prisoner is considered innocent all the time. If the Attorney for the State dares to make a motion for continuance, he is liable to be fined and sent to jail. He is not allowed even to have an indictment re-referred to a grand jury. The rules of evidence are construed in favor of the defense, and against the Commonwealth at every stage of the trial. No special fund is provided to aid the Commonwealth. Contrary to law, the jury is selected from bystanders, who are conveniently located, and warranted to acquit, no matter what the evidence may be, nor how black the crime. Gentlemen, under which system will Taylor be tried, if brought back to Kentucky.

POWERS AND HARGIS TRIALS.

A comparison of the efforts, upon the part of those who control affairs in the State of Kentucky, to convict Caleb Powers with the efforts to acquit the Hargises, is enough to cause a revolution among honest, fair-minded citizens, regardless of politics. For seven years Caleb Powers has languished in jail, when he could have given bond for a million dollars to secure his appearance. He has been tried and convicted three times. Upon each trial the rulings of the trial court, the unfair selection and packing of juries against him have been so glaring as to cause a Democratic Court of Appeals to reverse the lower court and give him a new trial. In all of his trials every scrap of evidence, no matter how irrelevant, if it could be in any way construed against him, has been promptly admitted. While, on the other hand, it has been made almost impossible for him to procure witnesses in his own behalf, to combat a vindictive, relentless prosecution procured by \$100,000, provided by all the tax-payers of the State. It is well to remember that the only charge against Powers, is that Goebel was shot from his office. Powers was not in Frankfort at the time. Now turn if you please to the treatment of the Hargis brothers, and those connected with them, in the assassination of, not one, but three prominent citizens of Breathitt county. When arrested they have been promptly given bail, furnished by each other. No fund has been furnished by the State to secure their conviction. So far, they have been acquitted, promptly, by juries selected for that purpose, although the evidence has been ten times more damaging against them than all the evidence against Caleb Powers.

The Hargises and Callahan are prominent Democrats and have been ardent supporters of the present State machine in all its contests for supremacy. Jim Hargis has been for years and is still a member of the Democratic State Central Committee, in good standing. At least we have never heard of any charges being brought against him before the committee. Reader, when we ponder over the records made in these two prosecutions, we wonder what right we have to offer criticisms to Russia or any other despotic government for discrimination and persecution.

Notice.

The following dates have been selected for the meeting of Company H, viz: February 8 and 22; March 8, 15, 22 and 29. These meetings will be held in the court hall, beginning at 7 o'clock each evening.

COMPLETES WORK AND ADJOURNS

Does Fiscal Court After Important Session of Five Days.

The Ohio county Fiscal Court completed its work last Saturday, after being in session only five days. That the session was an important one every one familiar with its work concedes. As forecast in last week's REPUBLICAN, a Supervisor of roads for the entire county was elected in the person of Mr. G. A. Ralph, of Magan. The term of office for the road supervisor is two years and it is his duty to see that all the roads and bridges in the county are kept in proper condition for the travel.

This will be done, as before, principally by the road hands. In fact his duties will be the same as road and bridge Commissioners have been with a few things added.

The court employed attorney M. H. Thatcher, formerly of Morgantown, but now of Louisville, to assist in the prosecution of the case of Ohio county against A. B. Baird, now pending in the Federal Court, for the cancellation of a note held by him against the county, which with interest, amounts to nearly ten thousand dollars. Mr. Thatcher was employed by reason of his familiarity with the Federal Court practice, he having been Assistant District Attorney for several years.

A committee, appointed for the purpose of borrowing not exceeding \$9,000 for the county, borrowed \$7,000 at 7 per cent. This was used to pay \$5,000 borrowed from M. S. Ragland one year ago, which together with the balance, \$2,000, went to pay in part for iron bridges contracted for in 1905 by the former administration.

Judge Taylor was directed to appoint a commissioner to investigate the feasibility of establishing a public road from Hartford direct across the bottoms from Hartford to intersect the Hartford and Centertown road near Bob Lawrence's shop, to be 60 to 80 feet wide. Should this be established it is understood the present road will be discontinued.

Ordered that County Clerk issue Fiscal Court orders for 25c per claim, to be paid by the County. Heretofore all claims of \$5 and above, the claimant had to pay 30c. All claims under \$5 put on tax book. Under the new ruling the county does the paying.

Another Card of Thanks.

Certainly no pastor ever had more to thank the members and friends of his churches for than I. A nice dinner for Thanksgiving and a box of nice things for Christmas were given us by the good people of Hartford, and now the good people of my church at Beaver Dam have made us a large donation of nice canned fruit, preserves, jelly, jam, sausage, drygoods, candy for the children, etc.

My family joins me in thanking the dear people for these useful things. May the Lord who loveth the Cheerful giver, and who said, "It is more blessed to give than to receive," bless them all in both spiritual and temporal things.

Miss Ambia Shreve, of Rosine, visited her sister, Miss Rosa Shreve Saturday and Sunday.

The Equity tobacco warehouse here is doing a splendid business. Already about 400,000 pounds of tobacco has been received and but for the impassable condition of the roads much more would have been brought in.

Rev. P. E. Herndon, of Logan county, is conducting a protracted meeting at the Baptist church this week.

Mr. Ed Summers, Superintendent of the Equity warehouse, is having an experience with boils that rivals the experience of the Patriarch Job, and he seems scarcely less patient under the affliction than was the celebrated Hebrew.

Resolutions of Respect.

Whereas, The angel of death has visited our Sovereign and Past Concel Commander, B. F. Saunders and taken from him and children a loving wife and mother. Therefore be it

Resolved, That we as members of the Woodman of the World do deeply sympathize with them in their great affliction.

Resolved, That, following the teachings of our order, we do commend them to the All Wise One as their comforter and guide in this their sad hour.

Resolved, That a copy of these resolutions be spread on the camp records and published in each of the county papers.

ROXEY.

Jan. 15.—Rev R. F. Beck has just closed a meeting at Mt. Zion church which resulted in a general awakening of the entire church and a number of souls saved. Rev. Beck was assisted by Rev. W. N. Miller.

S. T. Leach has purchased the farm of J. C. Wilson. Consideration \$2,000.

Cecil, the son of S. T. Leach, who had his leg amputated some time ago is not well and may not recover.

Grant Young and wife and Everet Sandefur and wife will leave the 18th for their home in China Texas.

Luther Leach and wife, Rob Roy, attended meeting at Mt. Zion last Sunday.

R. C. Jarnagin and Clide Taylor attended the State Union of the A. S. of E. as delegates at Frankfort. They report a nice time.

Talbert Miller visited friends and relatives at Pinchico Sunday.

Della Smith, Select, visited Lee Stevens Monday.

Lonnie Sandefur left to-day for China Texas.

We have had 19 days of rain in succession or snow with the exception of one and is still raining.

HERBERT.

Jan. 15.—The farmers met Saturday evening and had a very interesting meeting of the A. S. of E. and took on new life—paid their dues and are greatly encouraged over getting their money on their 1904 tobacco.

The excessive rains and warm weather are the general topic of conversation, the "eldest inhabitant" not being equal to the occasion.

Owing to the crowded condition of the tobacco warehouse at Whitesville, tobacco cannot be delivered and the farmers that had tobacco loaded had to re-hang it on account of it being in too high order. The roads from here to Whitesville are almost impassable.

Mr. Herbert Haynes went to Madisonville to-day to visit his brother, Minor, and family.

Jim Chambers and Homer Milligan attended the State meeting of the A. S. of E. at Frankfort

Mrs. Jim Ford, Mrs. Edna Duncan and Obe Burdette are on the sick list.

Arthur and Everet Milligan went to Ensor Sunday.

Mr. and Mrs. Robt. M. Miller visited Mrs. Miller's parents, Mr. and Mrs. C. W. Phillips, of Whitesville, Sunday.

Mr. Wm. Russell, of West Kentucky Seminary, visited his parents Saturday and Sunday.

Mr. Harry Monroe and family, of Beaver Dam Miss Lillian Monroe, of Hartford, and Mrs. Maud Taylor, Mississippi, visited their mother here last week. Mrs. Monroe will move to the residence formerly occupied by Mr. D. F. Gibbs, the latter part of the week.

H. B. I. Notes.

The Hartford Business Institute opened school in its new quarters with a quite flattering prospect. With the addition of new furniture and a bank, the rooms have taken on quite a business like appearance.

Miss Harriette Flenner, Cromwell, Mr. Elmo Jones and sister, Miss Mary Belle, of near town, enrolled with us Monday. Miss Flenner is one of the best teachers of the county. We are expecting other teachers as soon as they close their schools.

Does a business education pay? It certainly does when a young lady of eight or nine months training can go right into a \$50 position, and that is the record of one young lady from

this institution. There is an increasing demand for young men stenographers also at good salaries.

We cordially invite the public to visit our school and inspect the character of the work that is being done.

Sheriff's Sale.

By virtue of execution No. 61, book 12, directed to me, which issued from the Clerk's office of the Ohio Circuit Court, in favor of A. F. Stanley against Paul Carter, I, or one of my deputies will, on Monday the fourth (4th) day of February, 1907, between the hours of 1 o'clock p. m. and 2 o'clock p. m., at the Court House door in Hartford, Ohio county, Kentucky, expose to public sale, to the highest bidder the following property (or so much thereof as may be necessary to satisfy Plaintiff's debt, interest and costs) to-wit:

One house and lot in Hayti, Ohio county, Kentucky, bounded as follows: Beginning at a stone in Young Park's line, thence with Sherman street in Hayti, N. 79 W. four poles and 16 links, thence S. 26 poles to a stone, thence S. 79 E. four poles and 16 links, thence with Park's line to the beginning, containing three-fourths of an acre, more or less. See deed book 25, P. 418, for more particular description in Ohio County Clerk's office. Levied on as property of Paul Carter.

Terms: Sale will be made on a credit of six and twelve months, bond with approved security required, having interest at the rate of six per cent. per annum from day of sale, and bearing the force and effect of a sale bond.

Witness my hand, this 14th day of January, 1907.

The stockholders of the Bank of Hartford met Monday and re-elected the old board of directors for another year, viz: J. W. Ford, H. P. Taylor, John T. Moore, Rowan Holbrook and J. C. Thomas. The directors met and elected the same officers for another year.

Mr. Victor Matthews, Owensboro, is visiting his parents, Mr. and Mrs. Heber Matthews. Young Matthews has been for some time connected with the mechanical force of the Owensboro Messenger, and is an accomplished linotype machine operator.

Embroideries, Embroideries in stacks Insertions, Insertions to match. We didn't buy these to keep; Come see if they don't go out cheap.

You may think it a trifle early, But it's just the time to buy; Later on you will have to hurry And then they may be high.

LONG & CO'S. ECONOMY STORE.

There is strong talk among the stockholders of the Hartford tobacco warehouse of installing a drying apparatus. This would have the effect of giving the house almost unlimited capacity and bring to the town a large amount of the pooled tobacco, which for lack of room, has been going elsewhere.

The Government tug, Emory, arrived here Tuesday with an immense steam dredge, supplied with a powerful derrick, which is to be used in removing snags and other obstacles to navigation in Rough river. The crew will wait here until the water falls and then clear the river to its mouth. This work has long been needed.

Don't neglect looking over our bargain Shoe counters. The clearance sale price is less than the wholesale price at Long & Co's Economy Store.

Sheriff R. B. Martin gave an elegant dinner Monday in celebration of the reception of his quietus from the state and county for the 1906 taxes. His bondsmen and a few friends were his guests. Those present were: Rev. A. B. Gardner, Messrs. Rowan Holbrook, M. L. Heavrin, Wood Tinsley, J. T. Moore, Wayne Griffin, Dr. Joe Taylor, W. M. Flener, U. G. Ragland, S. A. Bratcher and C. M. Barnett. The splendid dinner and genial hospitality of Mr. and Mrs. Martin were thoroughly enjoyed by those present.

Prospects are very bright for the revival which began at the Methodist church here last Sunday night, notwithstanding the inclement weather. Large congregations assembled at each service and are well repaid with able sermons. Quarterly Conference was held Wednesday afternoon, preceded by a splendid sermon at 11 o'clock by Dr. R. F. Hayes, the Presiding Elder, and the administration of the Lord's supper. The singing is being led by Rev. G. W. Lyons, of Springfield, Ky., and his songs are inspiring to all who hear him. The services will continue for sometime, beginning at 2:30 in the afternoon and 6:30 at night.

Resolutions of Respect.

Beaver Dam Chapter No. 144, R. A. M.

Whereas, It has pleased Almighty God, the Grand High Priest of the Universe, to call from earthly labors, to eternal refreshments in the Temple of the New Jerusalem above, our dearly beloved, and much respected King and brother, N. C. Daniel, who departed this life, Wednesday, November 28, 1906, after a short illness from a broken limb; Therefore Be It

Resolved, That Beaver Dam Royal Arch Chapter, No. 144, has lost one of its most faithful members—a member who always squared his actions with all man kind and especially with brother Masons. He was generous, kind, upright, lovable, and ever ready to do a charitable deed. He was an honored citizen, a devoted husband and father; Be It Further

Resolved, That this lodge, in its hour of sore bereavement, extend its sympathy to his family, and commend them to the care of our gracious Heavenly Father, who doeth all things well; Be It Further

Resolved, that the members of Beaver Dam Chapter No. 144, R. A. M., wear the usual badge of mourning for 30 days, and that a memorial page be set aside in the minute book of this Chapter on which to be inscribed these resolutions, and a copy be sent to the family and a copy be sent to the Masonic Home Journal for publication.

The Year 1906 Is Passed.

It has been a successful year for us; in fact it has been the biggest in the history of our business. We are grateful to our many patrons for the business given us through the year 1906, but we are not yet satisfied. We want to do more business during the year 1907 than we did in the year just past. In order to do this, we must make an extra effort. We are going to do this by reducing prices. Now is the time to buy Clothing and Cloaks.

Girlhood and Scott's Emulsion are linked together.

The girl who takes **Scott's Emulsion** has plenty of rich, red blood; she is plump, active and energetic.

The reason is that at a period when a girl's digestion is weak, **Scott's Emulsion** provides her with powerful nourishment in easily digested form.

It is a food that builds and keeps up a girl's strength.

SOME WONDERS OF THE HUMAN BODY.

Few People Know What a Complicated Machine Their Body is.

In the human body there are about 263 bones.

The muscles are about 500 in number.

The length of the alimentary canal is about 32 feet.

The amount of blood in an adult averages 30 pounds, or fully one-fifth of the entire weight.

The heart is about 4 inches in diameter and about 6 inches in length, beating 70 times a minute, 4,200 times an hour, 100,800 times a day and over 36,000,000 times a year. At each beat of the heart over 2 ounces of blood are thrown out of it, 180 ounces a minute, 600 pounds an hour and about 8 tons per day.

All the blood in the body passes through the heart in three minutes.

This little organ, by it ceases industry, pumps each day what is equal to lifting 130 tons 1 foot high or 1 ton 130 feet high.

The lungs contain about one gallon of air at their usual degree of inflation.

We breathe, on an average, 1,200 times an hour, inhale 600 gallons of air, or 24,000 quarts a day. The aggregate surface of the air cells of the lungs exceeds 200,000 square inches.

The average weight of the brain of an adult male is 3 pounds and 8 ounces of a female, 2 pounds 4 ounces.

The skin is composed of three layers, and varies from one-eighth to one-quarter of an inch in thickness. Each square inch of skin contains 3,500 sweating tubes or perspiratory pores each of which may be likened to a little drain pipe one-quarter of an inch long, making an aggregate length over the entire surface of the body of 201,166 feet, or a ditch for draining the body almost forty miles long.

The nerves probably exceed 10,000,000 in number.

The nerves and the nerve system are all connected by the spinal marrow, and, together with their branches and ramifications, form a body guard probably exceeding 10,000,000.

Deafness Cannot be Cured by applications, as they cannot reach the diseased portion of the ear. The only one way to cure deafness and that is by constitutional remedies. Deafness is caused by and inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube resorted to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Alfalfa a Swine Tonic. Raising 1,000 hogs a year without any sign of cholera in the herd, is

the claim put forth by M. Barber, of Bloomington, Nebraska. He makes a specialty of this industry and has three hundred acres of alfalfa, where the hogs are raised.

"My hogs are raised in this field from the time they are pigs till they are about eight months old, when I put them on a feed of corn," said Mr. Barber to a representative of the Kansas City Drovers' Telegram. "If fed in the summer time I soak the corn. But the alfalfa is the most important feed they get, and is the one great thing that keeps them healthy all the year around. In all the years that I have been raising and handling hogs in this way, I never had a case of hog cholera on my farm. This is due to the alfalfa, which keeps the hogs healthy."

"Everybody Should Know" Says C. G. Hays, a prominent business man of Bluff, Mo., "that Bucklen's Arnica Salve is the quickest and surest healing salve ever applied to a sore, burn or wound, or to a case of piles. I've used it and know what I'm talking about." Sold by all druggists, 25c.

CAMPAIGN FOR EXPOSITION FUNDS.

Subscriptions for Kentucky-Jamestown Movement Sought From this Section.

A herculean effort will be made during the week, commencing Monday, January 21, to complete the fund of \$40,000 required to give Kentucky a proper representation at the Jamestown Exposition, which promises to be one of the most interesting World's Fairs ever held. The Kentucky General Assembly failed to provide a fund for a State Building or a State Exhibit and the task must be carried out by the citizens of the Commonwealth. It is pointed out that Kentucky, recognized as the first and foremost daughter of Virginia, should, above all other states, have a place in this Exposition.

Believing that the public-spirited citizens and business enterprises of Kentucky will not permit the State to go unrepresented, the Kentucky Commission has already secured an ideal site for a State Building and begun the collection of the logs which will be used as a replica of the Fort of Boonesborough.

Each county is requested to raise a sum amounting to one per cent. of the revenue turned over by the county to the State Treasury for the fiscal year ending June 30, 1905.

For the counties of this section of the State vice-chairmen of the division of finance have been nominated and the respective counties are asked to subscribe to the fund as follows: Breckinridge, \$203.41, Joel Pile, Hardinsburg, county chairman; Grayson, \$116.22, Lefe Green, Falls of Rough, county chairman; Ohio, \$235.71, Dr. E. W. Ford, Hartford, county chairman.

What She was Trying. She—Do you think Miss Back-number is trying to draw him out? He—No; think she is trying to persuade him to double up.

ALL OVER THE HOUSE.

Nursery Hints For Young Mothers. Care of Baby's Teeth.

A child's hair should be washed thoroughly once a month. Too frequent washing makes the hair dry and harsh. To keep it clean brush it twice a day for five minutes, separating the strands where the hair is thick and long so that the brush can reach the scalp. Keep the brushes clean by rubbing them with a cloth after use.

In infancy and childhood milk should form the greater part of the dietary. Far too much meat is given to children, and their digestive organs during the first few years of life are often ruined or considerably weakened by the practice. Should the milk have a tendency to curdle in the stomach the addition of lime-water or soda water will often counteract it.

Always clean a young child's teeth both night and morning. A tooth-brush need not be used, as the little gums are so very tender. All that is necessary is to have a piece of soft linen dipped into warm water. If the first teeth are taken care of and not allowed to decay the second set will, as a rule, be good.

Pastry Making.

In making pastry there are several points to be remembered apart from the actual making of it. Be careful that everything you use is scrupulously clean and dry. See that your oven is properly heated or your pastry will be spoiled, even though you make it properly. Always mix pastry with the tips of your fingers and not with the whole hand. Always roll pastry from you and not backward and forward heavily. The less pastry is handled and the quicker it is made the better.

Hard Sauce.

Put into a warm bowl one-quarter cup butter and one-half cup powdered sugar. Mix with a wooden spoon or spatula, beating hard for fifteen minutes. Flavor with one-half tablespoonful lemon, vanilla or a little nutmeg or powdered mace, as preferred; beat a little longer, pack smoothly on a small plate or pile lightly in a fancy dish, and set on the ice until very hard. A pleasing change is to add a tablespoonful currant jelly after creaming the butter and sugar, then beat light.

House Plants.

Do not overwater plants at this season of the year. Give just enough to keep the soil moist throughout. Let the surface take on a dry look before more water is applied. Evaporation takes place slowly, and few plants are growing actively enough to make use of a great deal of water. An oversupply has a tendency to sour the soil, thus bringing a diseased condition of the roots.

A Durable Mat.

A most durable doormat for hard outside use may be made of coils of rope, that which has had some use being preferable to that which is perfectly new. Take a darning needle and strong cord, coil the rope around once and sew on the underside. Then make another coil, and do likewise until you have a large mat. Such a mat is not easily blown or kicked out of place.

Care of Books.

If any liquid be spilled on a book, wipe it off at once gently with a soft cloth or absorb it with blotting paper. Do not dry it by a fire.

Do not turn a book on its face or place any weight on an open book.

Never open a large book from the ends or cover, but from the center.

Stains on Mattress.

Put the mattress in the sun and apply a strong solution of ammonia, laundry soap and warm water to the spots. If the first rubbing with a stiff brush or harsh cloth does not take out the stains, then repeat the cleansing until the yellowness disappears.

To Darken Eyebrows.

A "wash" to darken eyebrows is made by boiling an ounce of walnut bark in a pint of water. Add a lump of alum the size of a filbert and when cold apply with a camel's hair brush. To increase hair in the brows anoint them with sweet oil.

Care of Feather Pillows.

Never place feather beds or pillows in the sun, for the sun, acting on the oil in the feathers, is apt to give them a rancid smell. The right plan is to air the beds and pillows on a dry, windy day in a shady place out of doors.

Colors For Half Mourning.

Marion Harland says that lavender and shades of purple verging upon blue rather than red are recognized as slight mourning. Good taste forbids the sudden and violent transition from deep black to bright colors.

Pussy's Tale.

"Short tales bought here for magazines." The advertisement read. "I'll sell them mine; it is so short." This little kitten said.

—San Francisco Chronicle.

An Inch of Rain.

An "inch of rain" means a gallon of water spread over a surface of nearly two square feet, or a fall of about 100 tons on an acre of ground.

BUSINESS COLLEGES ARE FAILURES

In small cities and towns, because:
1. There is not a sufficient population to support a GOOD school;
2. Such schools are usually conducted by persons who are NOT qualified, or who make it a practice to travel about and defraud their patrons;
3. There are few if any opportunities for their graduates to secure employment in such localities;
4. The THOROUGH business colleges are located in the larger cities and are conducted by persons who are qualified;
5. The graduates of business colleges in small cities or towns can not secure employment in large cities when thrown in competition with the THOROUGH graduates of high-class schools, as business men have no time to experiment with incompetents. Therefore, be wise. Send for the finest 68-page catalogue ever issued by a commercial school, before deciding to throw away your money for a worthless training at some cheap school.

THE INDUSTRIES AT THE JAMESTOWN EXPOSITION

Most Worthy Works of Mankind Will be There for Study and Companion.

When the hour of noon, April 26, 1907, arrives and the gates of the Jamestown Exposition open to the world there will be witnessed on the shores of Hampton Roads, Virginia, the greatest collection of selective exhibits ever brought together. In commemoration of the founding of the first English settlement in America in 1607, this great Exposition will show the industrial progress of the nation for the past three years. All the arts, sciences and industries will be represented by the best exhibits possible to obtain. All the countries, all cities and manufacturing centers, all professions and creeds all arts and sciences, all callings and occupations, in fact, the whole world has been swept, to gather here, the most worthy works of mankind to be studied and compared in order that all inquiring minds may note the progress of the world in these first years of the twentieth century.

The great building at the Exposition include Manufactures and Liberal Arts with a display of the products of the workshop, together with a comprehensive exhibit of the equipment and manufactures of the same; transportation and machinery, Electricity, food products, mines and metals, agricultures, horticulture, power and alcohol, marine appliances and specialties.

The agricultural and horticultural industries of the country will be represented at this exposition as such interests have never represented at any previous exposition. Special provision has been made for this in a "State Exhibit" building which is one of the largest and most beautiful on the ground.

Aside from the horticultural and agriculture exhibits which will be displayed in this building, there is an annex for the proper exhibit of agricultural implements and farm machinery generally, farm equipment, methods of improving lands, and the appliances and methods used in agricultural industries. The special exhibits in tobacco, cotton and peanuts will also be in this building.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60. The proper care of the body during this decade cannot be too strongly urged. Carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by all druggists, 50c. j-f

What he Will Leave.

"When the Shah of Persia dies he will leave 800 widows."

"Oh, Death, where is thy victory? Oh, grave, where is thy sting?"

Ednorsed by the County.

"The most popular medicine in Otsego county, and the best friend to my family," writes Wm. M. Dietz, editor and publisher of the Otsego Journal, Gilbertsville, N. Y., "is Dr. King's New Discovery. It has proven to be an infallible cure for coughs and colds, making short work of them. We always keep a bottle in the house. I believe it to be the most valuable prescription known for lung and throat diseases." Guaranteed to never disappoint the taker. For sale by all druggists. Price, 50c and \$1. Trial bottle free. j-f

TALKS AS FREELY AS A FOUR-YEAR-OLD.

Does a St. Louis Nine Months Old Infant Named Barbar Jacques.

St. Louis is excited over a precocious child, named Barbar Jacques whose parents live at Pirmount avenue. Although but nine months old, she is able to talk plainly. Every word she says can be distinctly understood, and the child apparently exercises reason in using her words as they seldom are in the wrong place. Doctors who have examined the child declared that her mental faculties are as well developed as a child of four years, and that her talking is nothing short of marvelous. Barbara's linguistic ability was first noticed when she was six months old. She then pronounced words of several syllables without difficulty attracted by the remarkable gift of speech of the baby, scientists are among the most frequent visitors at the home of the child's parents to investigate.

Woman's Discernment.

"What a murderous looking individual the prisoner is whispered an old lady in a crowded courtroom. 'I'd be afraid to get near him.'"

"Sh!" warned her husband. That ain't the prisoner. He ain't been brought in yet."

"It ain't? Who is it then?"

"It's the Judge!"

Resolutions

Of the Beda local on the death of Mrs. A. G. Miller.

Whereas, God in His all-wise providence has seen fit to remove from our midst Mrs. A. G. Miller, this community realizes a great loss in Mrs. Miller. She was a fond and loving mother and a very dutiful wife.

We wish to extend to the husband, children and many friends our greatest heartfelt sympathy and that this, our appreciation, be published in the local papers.

Musical Instruments.

"Wanted—Baby or very small grand piano * * * condition equal to new."—Bazaar.

It is of course the advertiser's own business, but for ourselves we think the piano would be preferable. We do not care for the idea of a secondhand infant got up to look like a new one.—Punch.

FATE OF THE POOR DOG.

Champ Clark relates the experience of a western politician who was making a house to house canvass some years ago.

This politician had come to a prosperous looking farmhouse at a crossroad when he observed a comely young woman standing at the gate. Pulling up his horse, the candidate for the people's favor gracefully lifted his hat in salute to the young woman and politely asked:

"No doubt, madam, your estimable husband is at home?"

"Yes," responded the woman.

"Might I have the pleasure of seeing him?" suavely inquired the politician.

"He's down in the pasture a-bur-in' the dog," came from the individual at the gate.

"I am very sorry indeed to learn of the death of your dog," came in sympathizing tone from the candidate.

"What killed him?"

"He wore hisself out a-barkin' at candidates," said the woman.—Rochester Herald.

NINE THOUSAND THREE HUNDRED AND FIFTY

This is The Terrible Death Record of United States for 1906.

The record of deaths by murder and violence during the year of 1906, or up to December 26, shows that the number was 9,350; or 38 more than in 1905. Highwaymen, burglars and hold-up men committed 605 of the murders, and that 160 men and 11 women, after killing some person have committed suicide and that 108 of these double tragedies have followed love estrangements or connubial infelicities of various kinds. The number of double murders is even larger, amounting to 290 and 19 of the murders were women. The number of triple murders was 93 and three of the murders were women. There were 44 quadruple murders, 30 cases where five were killed one case where 6 were killed (for money), two where 7 were killed.

Balloon Problems.

If the wealthy man is to add the balloon to his power of locomotion by yacht and motor car, new problems will arise for the protection of the public. It is an open question, says the London Speaker, whether a balloonist who passes over a man's property commits a trespass.

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart. Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol For Dyspepsia

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. For Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured. MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me. D. KAUSLE, Nevada, O.

FOR THE LITTLE ONES.

How to Perform a Puzzling Trick With a Watch.

The bewitched watch is a trick that proves puzzling to many people.

Borrow a watch from any one in the company. Ask all your friends to stand around in a circle. Hold the watch to one person's ear and say: "It is going. Is that not so?" He will say, "Yes, that's so."

Hold it to the next person's ear and say: "Now it is not going. Isn't that so?" He will say, "That's so, for I can't hear it going."

So all around the circle. One person will find it going. The next one will find it not going.

The trick is done by means of a loadstone which you hold in one hand. When you want the watch to stop going transfer it to the hand containing the loadstone, which will immediately stop the movement of the works.

When you want it to go take it out of that hand and shake it gently while doing so. It will start to going again.

Game of Bookbinders.

In the game of bookbinders the leader stands in the center of a circle. Each one holds out his hands, palms upward, and upon them a book is placed.

The leader then goes around the circle, catching up the books in turn and trying with each book to strike the hands that hold it.

Each one tries to withdraw his hands before they are struck.

The same leader continues until he succeeds in striking some one's hands, whereupon the victim must take his place.

If one's hands are withdrawn and the book falls on the ground through a false movement on the part of the leader, it counts the same.

Favorite Royal Horses.

King Edward and Queen Alexandra show their affection for their horses in a curious way. When a favorite dies its hoofs are cut off and polished, and the horse's name is inscribed on each hoof. These are placed in a row in one of the harness rooms at Sandringham. On the wall above are photographs or prints of the owner of the hoofs. Their majesties have their favorite

dogs as well as their favorite horses. Against a wall at the back of their residence at Sandringham may be seen a stone, "To the memory of dear old Rover."

Present and Advise.

In this game all the children except two are seated in a row. One of the two whispers in the ear of each child, "I present you this," naming some article, and the second, following, whispers, "I advise you what to do with it," adding some usually absurd instructions. When all are ready they in turn tell what has been given and what they are to do with it. For example, "I was given a pussy cat and advised to put mayonnaise dressing on it."

Four Tongue Twisters.

Tongue twisting sentences are always good fun makers. Here are four for our young folks to try: 1. She sells shells. 2. The sun shines on the shop signs. 3. Shave a cedar shingle thin. 4. How much wood would a woodchuck chuck if a woodchuck could chuck wood? When you give these twisters out make it a condition that they shall be spoken quite rapidly, and you will have lots of fun.

To See Double.

To see double is easy to accomplish! Just look hard at a certain object not too close to you and gently pass your hand across one eye, shutting off its line of vision. You will see the object double for a moment or two with the other eye.

What About It.

"There is one house, children," said the Sunday school superintendent, "that is always open to rich and poor alike. Can any of you tell me what house it is?"

"I can," replied one little fellow. "It's the station house."—Chicago News.

A Choice.

"Could I have my choice," said the patriot, "I would be the man who writes the songs of a nation." "Well," answered Mr. Cumrox, "judgin' from what I hear of the payrolls, I'd rather be the tenor that sings 'em."—Washington Star.

The Long Past Bath.

"I got a shock from a lecture battery terday," said the first hobo. "Gee! It's a funny kind of a feel-

in'. Feels jist like taking a bath." "Say," exclaimed the other one, "you must have a great memory!"—Houston Post.

Filled the Bill.

"What did you do with that crazy poem you wrote awhile ago?" "I put 'Rah! Rah! Rah!' on the end of it and sold it to a university for a college yell."—Detroit Free Press.

Business.

"Where are you going, my pretty maid?" "I'm going a-jilting, sir," she said.—New York Life.

Night Business Course.

Having been solicited by several who are working during the day to teach a class at night, I have decided to do so provided a sufficient number will take to justify me. Those who are interested in this class please notify me at once so preparations for lighting the room can be made.

To The People of Ohio County.

I desire to express many thanks for the uniform courtesy and kindness extended to myself and deputies, during the past year by the public.

The severity of the recent tax law, together with the short time after its passage until I was forced to collect the tax made the task exceptionally difficult and the credit of its achievement, if any, is largely due to the faithful and untiring efforts of my field deputies, and while this office is compelled to collect the present year's taxes under the same law, I hope that a more general understanding of the law, and its requirements and penalties, will bring a prompt response, to the official call for taxes.

Hartford College

THE OLD AND RELIABLE.

Hartford College is now on a boom. Every room in the building is occupied by a regular teacher. The Business Department will be moved to quarters down in town to provide for another regular teacher in the Collegiate Department, which will employ three teachers full time for THIRD and FOURTH TERMS, beginning JANUARY 14, 1907. Training of TEACHERS IS MADE A SPECIALTY, THOROUGH INSTRUCTION AND RAPID REVIEWS IN ALL COMMON SCHOOL STUDIES WILL BE GIVEN BY THOROUGHLY COMPETENT AND EXPERIENCED TEACHERS.

The Board of Education has made liberal appropriation for Maps, Globes, Charts, Chemical and other apparatus, all of which will be installed by the opening of the Third Term, January 14, 1907.

Over forty non-resident students are now in attendance and it is confidently expected that this number will be increased to one hundred after Christmas. Patrons and friends are earnestly requested to help obtain this number and thus again renew the palmy days of Hartford College.
